The following certificate from Dr. John C. War-

ren of Boston, was given 10 years since, but will

last forever.

Boston January 7 1835

Having had occasion to observe that some per-

sons afflicted with Hernia have suffered much

from the want of a skillful workman, I accom-

panied Dr. Foster to the premises of his cases. I

have taken pains to inform myself of the com-

petence of J. F. Foster, to supply the deficiency

occasioned by the death of Mr. Beach. After

some months of observation of his work, and well

assisted that Mr. Foster is well qualified, and

the manufacture of these instruments and in-

structions in accommodating them to the variety of

cases which occur. I feel called upon to recom-

mend him to my professional brethren, and to the

public as a person well fitted to supply their want

in regard to these important articles.

Bank Note Protection.

A new plan to prevent Fraud by the

Alteration of Bank Notes from

low to higher denominations.

The Notes are divided into two classes

Class 1st embraces the denominations of

one, two, three, four and five dollars. These are

marked by strips at the right ends of the notes,

composed of geometric strips of paper and running

to the centre. The number of strips is corre-

sponding with the amount of the notes. Thus

one strip for one dollar two strips for two dollars

and so on, and upon the centre of these strips

large figures are placed designating the denomi-

nation of each note. In this class of notes there

are no bands on the left ends which are occu-

pyed by vignettes and other work. The Pres-

ident's name will be placed on the right end

and strip work on all notes of this class, and

that of the Register or some other name above it

thus protecting the strip work from alteration--no

note being left for adding another strip either a

bove or below the signature.

Class 2nd embraces the denominations of

ten, twenty, fifty, one hundred and five hundred dol-

lars. These notes are marked by strips on the left

ends of the notes, and the number of strips is

corresponding with the amount of the notes. Thus

ten strips for ten dollars, twenty for twenty dol-

lars, and so on. These notes are marked by strips

on the left ends of the notes, and the number of

strips is corresponding with the amount of the

notes. Thus ten strips for ten dollars, twenty for

twenty dollars, and so on. These notes are

marked by strips on the left ends of the notes,

and the number of strips is corresponding with
